

## CAMPBELL TO DELIVER KEYNOTE ADDRESS

We are delighted that Thomas W. Campbell has accepted our invitation to be the keynote speaker for **Consciousness: The Endless Frontier**, The Monroe Institute's Twenty-second Professional Seminar, which will be held March 20–24, 2010.

Tom holds a Bachelor of Science in physics and math from Bethany College and a Master of Science in physics from Purdue University, as well as having done doctoral-level work at the University of Virginia. He is the physicist described as “TC” in Bob Monroe's *Far Journeys*. Tom began researching altered states of consciousness with Bob in the early 1970s. He and a few others helped to design experiments and develop the technology for creating specific altered states, and they were also the main subjects of Bob's investigations at that time. For the past thirty years, Campbell has been focused on scientifically exploring the properties, boundaries, and abilities of consciousness. During that same time period, he excelled as a working scientist—a professional physicist dedicated to pushing back the frontiers of cutting-edge technology.

Using his mastery of the out-of-body experience as a springboard, he dedicated his research to discovering the outer boundaries, inner workings, and causal dynamics of the larger reality system. In February of 2003, Tom published the *My Big TOE* trilogy, which represents the results and conclusions of his scientific exploration of the nature of existence. This overarching model of reality, mind, and consciousness merges physics with metaphysics, explains the paranormal as well as the normal, places spirituality within a scientific context, and provides direction for those wishing to personally experience an expanded awareness of All That Is.

*My Big TOE* speaks to each individual reader about his or her innate capabilities. Readers will learn to appreciate that their human potential stretches far beyond the limitations of the physical universe. The acronym “TOE” is a standard term in the physics community that stands for “Theory Of Everything” and has been the Holy Grail of that community for fifty years. *My Big TOE* delivers the solution to that scientific quest at the layman's level with precision and clarity. Please join us in March to hear Tom share

the knowledge and wisdom he has acquired since following his personal inclination to “find out for himself.”
